

that the Wisconsin Supreme Court had rendered its decision in the injunction suits in favor of the railroads, and the prices were so skillfully manipulated up that the report momentarily found believers. The shorts taking flight, and climbing over each other in their anxiety to buy, the market became very much excited; and during the flurry Northern West advanced from 36 to 38, and St. Paul from 32 to 34, these stocks finally dropping off and closing at 37 and 38 respectively. This movement has probably caused a discounting of the effect of the decision which is expected to-morrow. The earnings of St. Paul, which are reported to have fallen off very heavily during the first week in September, are quite as likely to influence the future price of the stock as the result of the litigation, even should it prove favorable to the road. In fact, except as it may for the moment effect speculation, the granting or not granting of an injunction is of but little moment. The law still stands, and under its provisions suits have been brought against the railroad companies in different parts of the State; and unless the statute shall be declared unconstitutional by the Supreme Court of the United States, it will be enforced. The general market to-day opened strong on an advance on Saturday's closing prices, and continued so up to the time of the announcement of the canard; but during the excitement in regard to the Western stocks, some one sold so many of those stocks, and of others, that the prices weakened very materially all round at the close. During the earlier part of the day Union Pacific and Western Union Telegraph were the leading cards, and advanced 14 and 1 per cent respectively, Lake Shore following them closely; but these and the whole lot went off at the close. The opening, highest, lowest, and closing prices of stocks sold to-day were as follows:

There has been nothing new to say of gold, the forenoon sales having been at 100 1/2 and the afternoon transactions at 100 1/2, but the dealings were restricted.

For gold loans the rates were 1/2 and 1 per cent for carrying, flat, and for borrowing 2 per cent. The foreign exchange market has been a fraction steadier, though the nominal rates have undergone no change. Bills are scantly offered, and the demand is also slack, the best figures obtained for prime bankers' 60 days sterling being 4.83 1/4-4.83, and for sight, 4.83 1/4-4.83. Financial advices from London report money on three months' bills attainable at 29 1/2 per cent, Consols and American securities being steady and quiet. The Assistant Treasurer redeemed in called Five-Twenties \$30,000, and disbursed in coin interest on the public debt \$70,000. The day's business at the Gold Exchange bank covered: Gold cleared, \$80,000; gold balances, \$1,439,888; currency balances, \$1,637,670. The following were the quotations:

The day's business at the U. S. Treasury comprised: Gold receipts, \$741,050 50; Current paymts., \$2,058,701 47; Gold payments, 500,000; Current balance, 56,434,860; Gold in vaults, \$464,000; Gold in safe, \$1,000; Current receipts, 436,544 50.

We annex closing nominal rates for foreign exchange:
